TATJANA (PARI)

Tatjana Wegner lives in Hamburg, Germany. Since 1990 she works as a professional ballet dancer, instructor, performance artist, dance therapist, presenter and model. 2003 she founded the first German BollyDance Company and above that she acted in several German TV-series. After a classical ballet education in Kiev and international performance she discovered Indian dance and learned to love it influenced by Bollywood films. She was educated in various styles of classical Indian dance and since 2002 she combines this knowledge with her education as a fitness instructor. As a result, her concept for BollyDance was born. Therefore she became trendsetter for a movement which found its way to Europe. She leads with charm and passion into the colourful Indian culture.

BOLLYDANCE

India has inspired me because of its exciting colours, the various cultures and the different rhythms of BollyDance. European dancing tradition and the unique Indian dance styles are the components for my dance - Masala (Indian spice mixture) - which I teach in my classes. BollyDance is a movement based workout which is a lively mix of dance-, aerobic-, and hip hop elements as well as modern Bollywood dances. Dancing like Indian Gods, like in a Bollywood movie integrated in a group-fitness and -dance class. A new kind of workout accompanied by Indian music where characteristic movements, special steps, foot positions and hand and finger positions (Mudras) are combined in dynamic choreographies.

CLASSES AND WORKSHOPS

BollyDance is not an exclusive event for dance professionals, but instead a rousing dance concept for everyone loving to dance. The goal is to enjoy exercising, have excitement for music and to enjoy your body. The class structure is set up with an easy workout, study of certain steps and gestures which are brought together as a choreography at last. In a workshop of several hours in addition to this also meditation techniques, basics of aroma therapy and Indian myth are being taught. If a participant is caught completely, they can either join the BollyDance Company or undertake the trainer education. An up to date list of events and classes can be seen at www.pari-productions.com

BOLLYDANCE COMPANY

2003 Tatjana Wegner founded the first professional BollyDance Company in Germany. 20 dancers from USA, Russia, Japan, Iran, France, China, India and Germany are part of the Company. If you need a wonderful exotic touch for your event, the BollyDance Company is the right choice. Our programme might exactly be customized for your needs, so do not hesitate to contact us.

BOLLYDANCE SHOWS AND BOLLYWOOD FILM

The first big show of the BollyDance Company was the "BollyDance Circus Show" where danceparts in rich costumes were combined with the appearances of acrobats. The next show with the agency Shenan Doah was named "Taj Mahal" and took place in the Albert Hall /Bruxelles.

It brought the romantic lovestory linked to the famous palace to stage. Beside various showparts of several duration a new show with the title "Maharaja Palace" was presented at an event of the company Sennheiser at the Hannover Zoo. The shows were presented very authentically by the BollyDance Company and therefore it was also booked for a number of Bollywoodfilms like: "Aap Kaa Surro" and "Karma" by Vivek Singhania, the Disneyfilm "Hexe Lili 2" at Babelsberg/Berlin and the childrens Bollywoodfilm "Crazy for love" in Hamburg.

BOLLYDANCE-TRAINER

Meanwhile the Bollywood-virus has spread Europe-wide and is highly requested. Therefore, Tatjana Wegner developed various concepts for training and dancing. For the first time in Europe she offers a funded and licensed trainer education. This education is based on a 4-week-block-seminar. Each block is dedicated to basic steps and basic movements of BollyDance, the study of standard choreographies, background information like Indian mythology and their symbols, meditation techniques, developing own choreographies and building a class structure. All blocks are bound to another and are building up on each other. At the end of the seminar is the exam which the participants have to pass to get the license. This is an unlimited dance-trainer-license and includes a fitness-license.
